15th November 2019

Dear Parents/Carers

It has come to the attention of NHS Grampian that there is some incorrect information currently circulating about the postponement of the flu vaccination programme. This letter is to update details of the arrangements in place.

Some children have already been vaccinated. These are children with underlying medical conditions, children who are 4 years old on the day nurses attended the school and children who live in a household with a severely immunocompromised contact.

We have received further information today from NHS Grampian advising that stocks of the Fluenz Tetra Nasal Spray are now available. All children who have not had their immunisation will now receive this on **Monday 25th November 2019.**

Please note, if you have had your child vaccinated at a chemist, it is your responsibility to pass these details onto the school and your GP Practice to reduce the risk of duplicate vaccination. Please contact the school office if your child has been vaccinated at a chemist.

Yours sincerely

a anderson
