Eco Group – Exciting Recycling Project

The Eco Group are now in a position to help you recycle batteries. Battery recycling is a recycling activity that aims to reduce the number of batteries being disposed as waste. Batteries contain a number of heavy metals and toxic chemicals and disposing of them by the same process as regular waste has raised concerns over soil contamination and water pollution.

The children will come home with a small cardboard container. The can use this to take batteries to school, which the Eco Group will them recycle.

UNICEF Rights Respecting Schools – Bronze Award

Barthol Chapel School is delighted to have received a UNICEF Rights Respecting Schools Bronze Award! Achievement of this award demonstrates that our school has introduced the importance of the rights in our school community. Our learners have worked hard to demonstrate and respect the rights we are entitled to such as the right to play, learn and develop our unique talents and interests.

CPR Training

On Monday, The Sandpiper Wildcat Trust held a series of life saving events in school where the children learned how to respond in an emergency. We had fun learning the importance of early recognition, calling for help and assistance, CPR and AED. This is particularly relevant as an Automated External Defibrillator (AED) is situated at our school entrance and accessible 24 hours a day.
