Colds & Coughs

This winter we have all been struggling with colds and coughs that have been doing the rounds. We have had many children suffering with a blocked or runny nose, a sore throat, headaches, coughs, a raised temperature, pressure in ears and face. In school we have been reminding the children to reduce the risk of spreading colds and coughs by washing hands often with warm water and soap, using tissues to trap germs when coughing or sneezing and to bin used tissues as quickly as possible.

We have almost finished our supply of tissues and would be grateful for a few more donations. Thank you!
