

Our School Improvement Plan

2020 / 2021

What are we doing to make our school even better?

To help you achieve and make good progress

To do this we will:

Use what we have learned in new challenging situations to assess our progress.

Talk to each other about what we have learned and how we have learned.

Improve the feedback we give you to help you understand your progress.

Talk about how we are feeling using the Wellbeing Indicators.

Support each other to adapt to the changes that are happening in our school and society due to COVID-19.
